LET YOURSELF BE INSPIRED

Immerse yourself in the rich and inspiring world of Glide-Lock decorative hardware.

Our collections showcase products where innovation and craftsmanship come together through a wide range of materials, finishes, and styles to meet the needs of every type of project.

Whether for kitchen cabinetry, bathroom furniture, built-in furniture, closets, or wardrobes, you will find a collection that fully expresses the style you are seeking.

Designed to meet the specific demands of each project, our products adhere to the highest standards of quality and durability, for residential spaces as well as commercial and professional environments.

MODERN

A style defined by clean lines and balanced shapes. It lends a contemporary, approach designed for refined, minimalist interiors.

TRANSITIONAL

At the intersection of classic and contemporary, this style is defined by balanced lines and subtle detailing, creating an aesthetic that feels both timeless and current.

TRADITIONAL

Rooted in symmetry and attention to detail, this style is expressed through refined materials. A classic aesthetic shaped by ornamentation and balanced proportions.

ECLECTIC

Open and expressive, eclectic hardware brings together forms, finishes, and influences to create personalized, expressive environments.

UTILITY

Streamlined and functional, this style prioritizes efficiency and ease of use. Clean, straightforward forms support projects designed for frequent use, particularly in commercial settings.

UNDERSTANDING PRODUCT CODES

To make identification easier, each product is assigned a **unique code.** This code includes a root number (or series name), the center-to-center length for pulls or the diameter for knobs, along with a finish number.

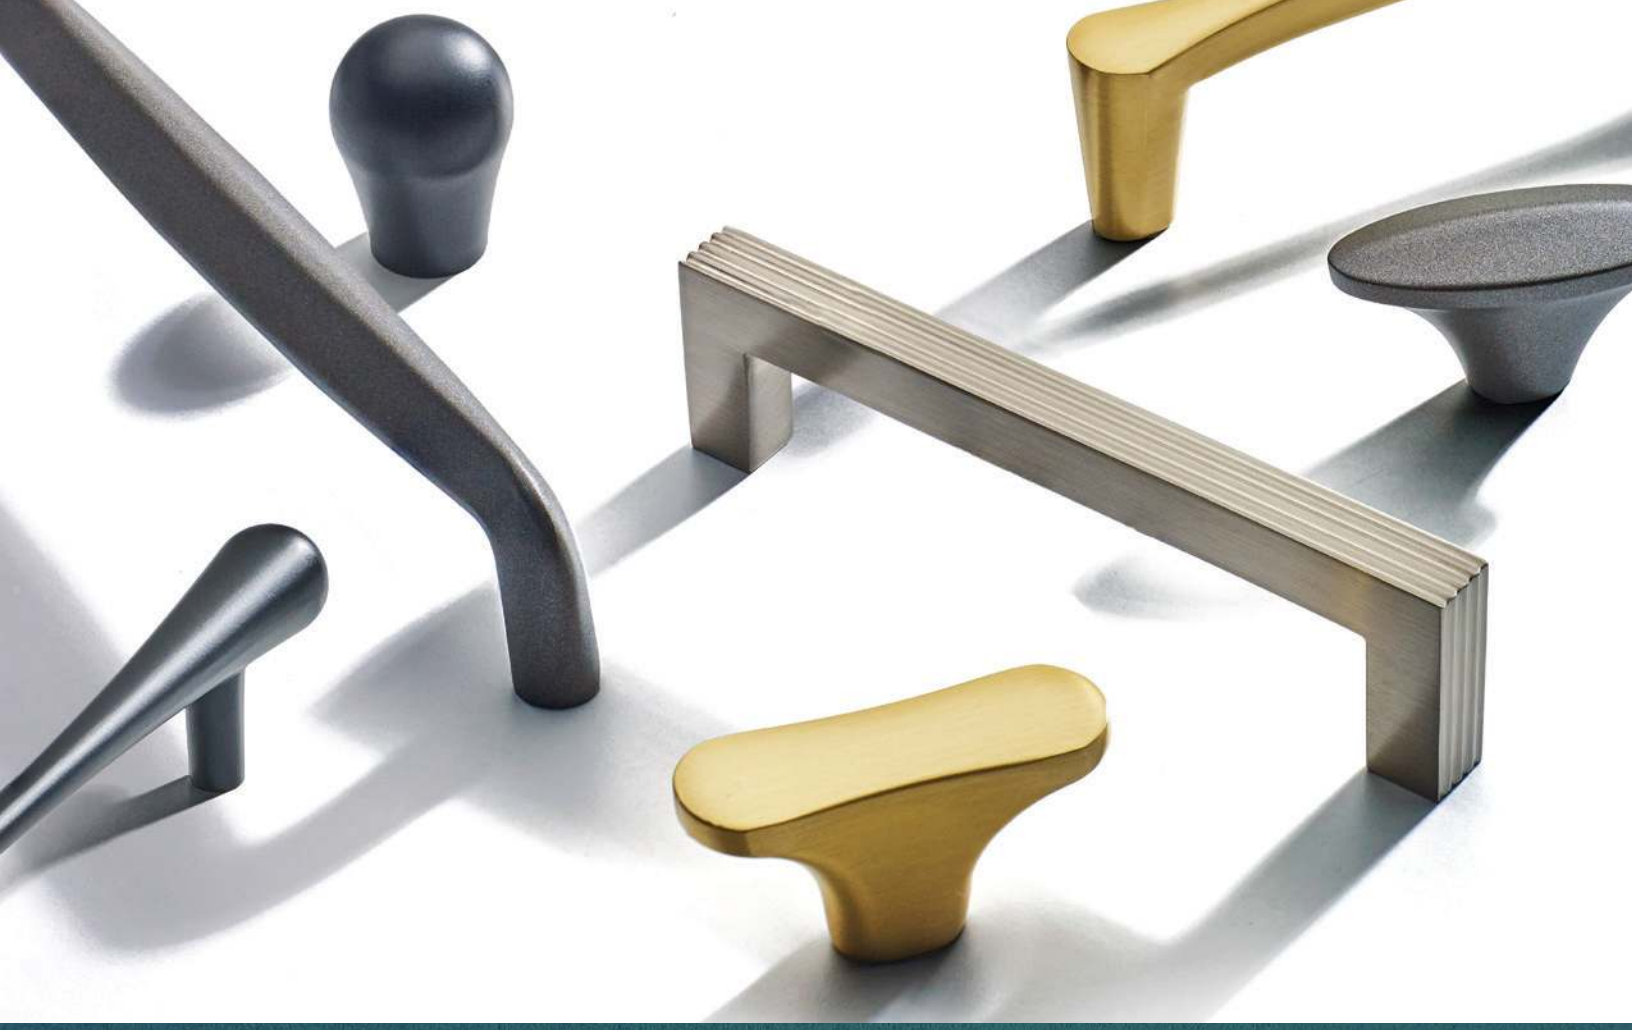

BP8160128140

"Root" or Series Number

Center-to-center or Diameter

Finish Number

TAILORED SOLUTIONS FOR EVERY NEED.

Guided by internationally recognized standards, Glide-Lock products embody a lasting balance of quality, performance, safety, and environmental responsibility.

Leadership in Energy and Environmental Design (LEED)

Certifies that the hardware is made from 94% pre-consumer recycled brass using environmentally responsible processes.

Restriction of Hazardous Substances (RoHS)

A directive aimed at eliminating or reducing the use of substances harmful to human health and the environment. RoHS-certified products are free of lead, mercury, cadmium, and hexavalent chromium.

Builders Hardware Manufacturers Association (BHMA)

The ANSI/BHMA A156.9 certification confirms the strength, durability, and resistance to corrosion and breakage of the hardware.

Americans with Disabilities Act (ADA)

Ensures a design that meets the needs of individuals with reduced mobility. ADA-compliant products provide increased clearance for easier handling and improved user comfort.

Resistance to disinfecting products

These products are resistant to cleaning agents and allow for effective disinfection without damaging the surface. Made of 316 stainless steel, they offer enhanced durability and corrosion resistance for both indoor and outdoor applications.

Antibacterial Products

Uses a silver-based Saniguard treatment to inhibit the growth of a broad spectrum of bacteria.

Care Instructions

Clean with lukewarm water, mild soap, and a soft cloth. Avoid abrasive cloths, cleaners, disinfectants, or waxes, as they may damage the protective finish.

Inspiration

A curated selection of distinguished designs. These pieces are defined by their elegant finishes and meticulous craftsmanship. A refined collection created for those who seek that distinctive touch that turns a project into a signature statement.

OCEAN

A SUSTAINABLE DESIGN

Made from upcycled fishing nets, this innovative material transforms ocean waste into high-quality decorative hardware. Every pull and knob is 100% recycled, reducing pollution and supporting a healthier planet.

Sourcing
Fishing nets are collected from the ocean, reducing marine waste.

Cleaning & Sorting
The recovered nets are thoroughly cleaned and categorized.

Transformation
The nets are processed into high-quality recycled acrylic.

Manufacturing
The acrylic is engineered into durable, stylish decorative hardware.

Sustainability
100% recyclable, supporting a circular economy and a cleaner planet.

By choosing Ocean by Glide-Lock, you're embracing innovation, sustainability, and a commitment to reducing pollution.

Appliance Pulls

The models designed for home appliances are sturdier than standard cabinet handles and are built to support heavier appliance doors. Most of these models come in lengths ranging from 12 to 18 inches and each handle is equipped with reinforced screws such as M6 or their imperial equivalent.
